Family of Companies

- Nearly 10,000 Jobs
- \$31 million in revenues

- Saved \$4 million over 10 years
- Will earn \$2.2 million in revenues through IRUs

Another strategic economic development focus area is on upgrading the City's Legacy Office Space:

- Approximately 7 million square feet of commercial office space
- Built in the 1980 and 1990
- **GOAL:** Keeping these aging buildings competitive against new buildings throughout Dublin and the region

Steps to Improve the City's Legacy Office Space

- **Improving parking ratios** – Recognizing there are more employees per square foot of office space today than in years past, the City is looking at creative solutions to increase parking for older office buildings.
- **Aesthetic improvements** – From utility burial to way-finding to replacing over-matured landscaping to adding shared-use paths and lighting, the City is making improvements to enhance the aesthetics and amenities of our legacy office space.
- **Dublink Enabled Buildings** – The City is installing fiber optic laterals into office buildings and allowing for up to **100-gigabits** of high speed broadband capacity.
- **Access to Metro Data Center** – Through Dublink, companies can access a local data facility to house servers and routers off-site, while providing them with a choice of 13 different internet providers.

dubLINK

Intelligent. Vital. Connected.

Dublink - What's in it for my business?

The City of Dublin has invested in a unique fiber optic network called Dublink. Once only available to the Fortune 500 companies, now it is available to the Small to Medium Sized Businesses (SMB).

Savings

- Subterranean laterals extended into buildings at no cost
 - Eliminate all transport costs
- Access to global networks and providers of your choice
- Low cost Internet services

Infinite Scalability

- Choice of connectivity to most major service providers
- Data Center products and services
- Cloud services, co-location
- Access to OARnet, OSU Super Computers, Business-to-Business, GENI, Internet2

Dublink Services

- Direct access to a community of service providers with expertise encompassing IT and core business related products and services

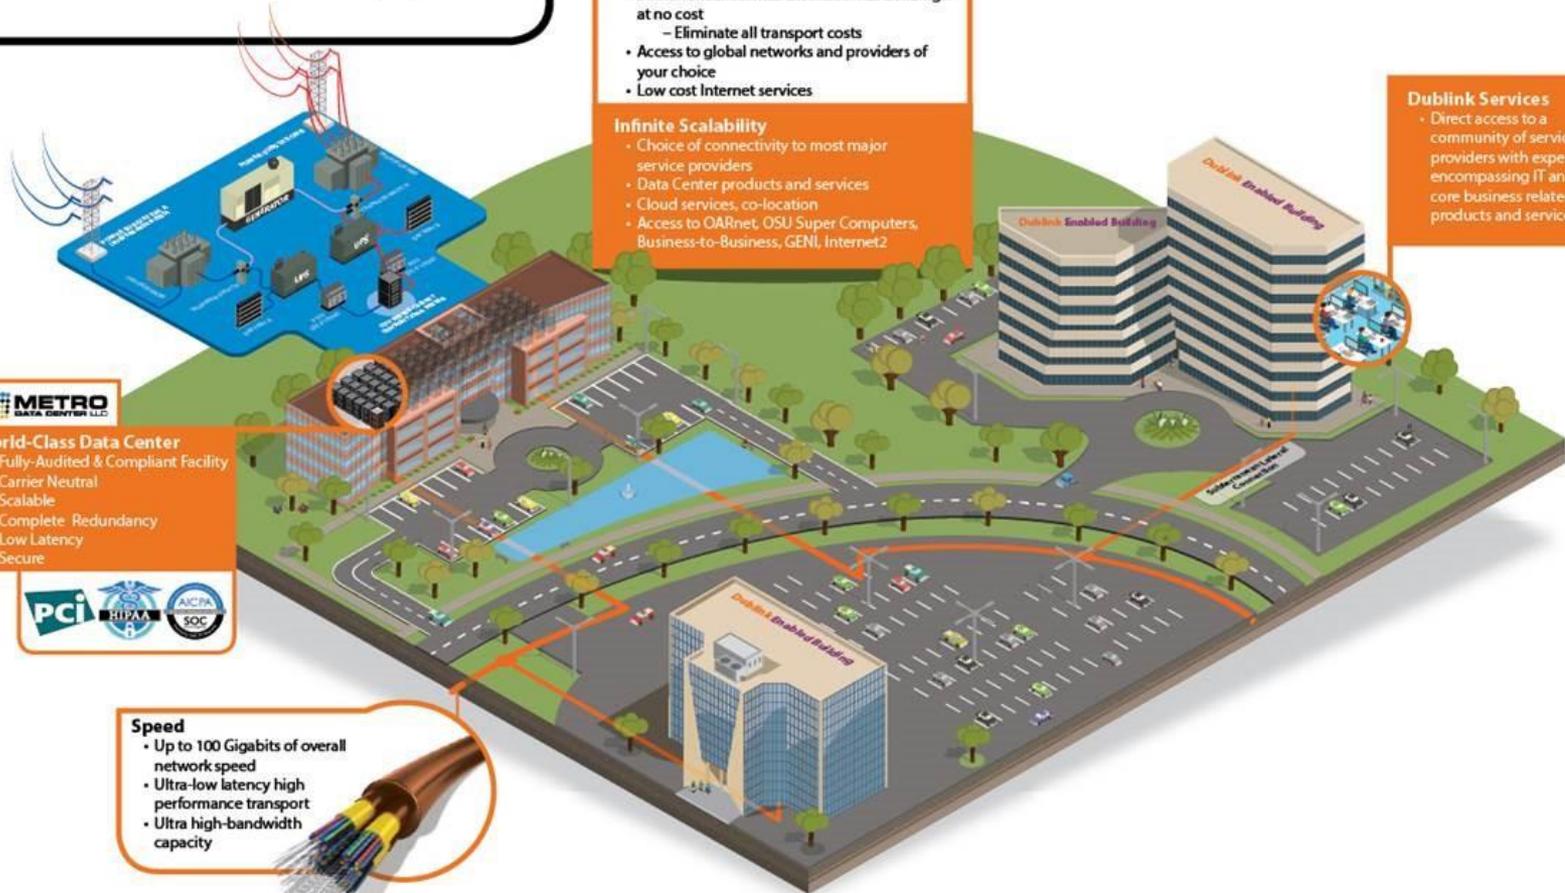

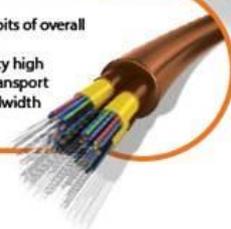

World-Class Data Center

- Fully-Audited & Compliant Facility
- Carrier Neutral
- Scalable
- Complete Redundancy
- Low Latency
- Secure

Speed

- Up to 100 Gigabits of overall network speed
- Ultra-low latency high performance transport
- Ultra high-bandwidth capacity

100 gig as an incentive

- Free infrastructure
 - Fiber
 - Edge devices
- Free backhaul
- Data center access
 - Rack space
 - Access to ISP
- OSC/OARNet/Internet 2/
NSF GENI
- Apps as a Service

- Intelligent
 - Vital
 - Connected
