Global Institute for the Study of the Intelligent City in Dublin, Ohio, USA

# Facilitation Questions

# Broadband Deployment

1. What are the minimum requirements for broadband service in a community and who is/should be responsible for assuring that it's in place and covering the costs?
2. What policy, legal or logistical hurdles must be overcome to assure successful broadband deployment?

# Broadband Use

1. What do you consider to be the minimum and essential uses of broadband for advancing progress toward the 6 ICF Indicators?
2. How will you know if broadband use is effective at making progress on the ICF 6 indicators?

# Broadband and ICF Institute Research

1. How can broadband technology be utilized to effectively support and enhance innovation research and development?
2. How can the ICF Institute innovatively distribute and use the research results to assist communities?

# Preliminary Conclusions and Recommendations

1. What information and information sources should be sought to support the Institute's work in its function as a regional hub for the dissemination of ICF principals and best practices?
2. What groups should be invited to get involved in the work of the Institute coming to Dublin to learn, study and accelerate their development as Intelligent Communities?
